Dude, for real, WTF? When I see the "work of art" of this dude, I wonder what the fuck? Like, I don't know if you get it, but... and I know that it is going to sound like I'm a reeaaaal jerk, and I'm going to be tagged as a "Whitexican" or whatever, but seriously no way, for real, isn't this dude like unbelievable?

I imagined the funcking Pikachu giving its all and, dude I laughed my ass off, but what really took me by surprise is that the fucking drawings are poor, but in reality cool, dude, the important thing is that they make an impact ¿right? Or what, ¿did I really go too far out with my comment?

Like, dude, ¿what the fuck is going on with this nut job that draws Pikachus fucking and everything?

Fucking artists they are really crazy, dude, for real. But, his drawings are fucking right, I can't with the fat and ugly lady that negotiates with the vampire, dude, ¡he blew himself!

The other day we were at a party with some friends and one said to me that he didn't know how to convince a guy to make some business with him, and I thought, well suck his d\*\*\*, or what? Too gross? Not really.

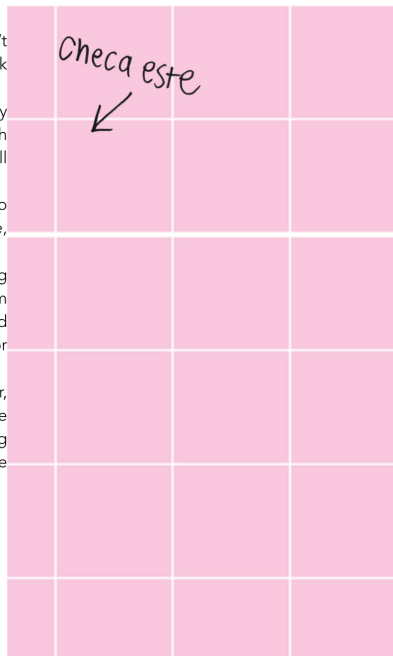

Then the artist gets very intense with all about Michoacán, but dude he is definitely right. Like, people that have money, we don't give a damn about what happens with the narcos, and poor people, but dude sooner rather than later this whole country will be damned.

Like, even if it's for our sweet rides, we should do something. Dude I do not want to have to buy a new car all the time, well yeah I do, but not because they stole it dude, hahaha. With this shit I'm saying, I sound like ppmktzz.

I don't know dude, we really have to think what the hell?, what the hell is happening with the society that we live in? And I don't give a fuck if they say that because I am rich and a daddy's boy I can't complain, of course I can, because even if I don't need to complain, I just ask my dad for money and that's it, but what the fuck, one way or another we have to agree on something ¿right dude?

Dude, fuck me, I just want to finish this shit that my communication teacher asked for, to pass his class. What the hell with the fucking Koreans, Chinese or whatever they are dude. The other day, my girl was watching a fucking Korean series, unreal. Effing amazing soaps, dude I loved it, a hundred percent loved it. Those dudes are everywhere, even in these amazing doodles.

-----  
A friend once asked me if the rich, the poor, the extremes of society, didn't have an interest in dialogue or coming together, he asked me if they did not get on discussions just because they don't think, some for hunger, some because they are idiots. It left me thinking: one of the first exercises of community lies in the ability of intereatrina in our minds all actors in a societv. I don't know. maybe there's still a

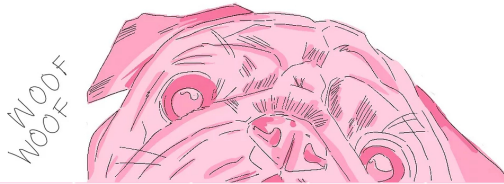

possibility, dude.
